3G1P ---> All of the equipment that the 3G1P team had left behind when they had to evacuate the rock (21 August) is gone - most likely washed away by the high ocean swell under strong winds. The lost equipment includes "the KPA500, one IC-7000, seven Dunestar-300 band pass filters, two multiband antennas, one 2-el yagi, one Honda EU22i generator, two fiberglass masts, all Cezar's personal clothing and sneakers, etc . The estimated replacement value is well in excess of $8,000. To be clear, this loss is the responsi-bility of our team. However, we would very much appreciate all the support that the IOTA and DXing community can afford to offer".
See https://3g1psa-100.weebly.com for more information.

DX MARATHON SPRINT ---> "The DX Marathon continues to grow, and Cycle 25 has brought even more excitement to DXing", the Program Administrator (Mark Wohlschlegel, WC3W) says. All submissions must be made via the submission tool on the DX Marathon' website, and must be received no later than 2 November at 23:59 UTC.
